Dixon, IL – The Illinois Department of Transportation announces the following update to the construction work on the US 67 Centennial Bridge over the Mississippi River between Rock Island and Davenport. Pavement marking is scheduled to be finished on Friday, July 10, 2015, after which all lanes will be open for the weekend.

There will be lane closures during the day during the week of Monday, July 13th through Thursday, July 16th. The outside lane for northbound traffic from Illinois to Iowa will be closed while the annual bridge inspections are completed.

All lanes will then remain open on the bridge for the next several weeks while General Constructors Inc. of the Quad Cities works from underneath the structure to make repairs to the bridge. In late August or early September, it will be necessary to close lanes again for approximately three weeks to complete the final structural repairs for the \$3.35 million contract. The work is scheduled to be completed with at least one lane of traffic in each direction open at all times.

Please slow down and use extreme caution while driving through all work zones.
